TrueSafe™
Safety I.V. Catheter

RapidFlash™ Needle
The notched needle **featured in sizes 20g-24g** allows for catheter blood flash observation, before blood reaches the flash chamber.

Our Safety I.V. Catheter is designed to reduce hit-and-miss insertion attempts by immediately confirming vessel entry, enabling you to stay focused on the insertion site. The design features a notched needle which allows for catheter blood flash observation; incorporated into gauge sizes 20g - 24g. After threading, with the press of a button, the needle instantly retracts into the barrel chamber, helping to reduce accidental needle sticks and making sharps disposal easier.

MS-844202	TrueSafe, 20G x 1.16"	EA, 50 EA/BX, 4 BX/CS, 200 EA/CS
MS-84420	TrueSafe, 20G x 1.88"	EA, 50 EA/BX, 4 BX/CS, 200 EA/CS
MS-844203	TrueSafe, 20G x 1.00"	EA, 50 EA/BX, 4 BX/CS, 200 EA/CS
MS-84422	TrueSafe, 22G x 1.00"	EA, 50 EA/BX, 4 BX/CS, 200 EA/CS
MS-84424	TrueSafe, 24G x 0.75"	EA, 50 EA/BX, 4 BX/CS, 200 EA/CS

Features:

- Fully encapsulating needle shield with push button activation
- Notched needle in sizes 20g - 24g
- Contoured housing and ergonomically designed thumb grip
- Gently tapered catheter tip
- Large-volume chamber

Benefits:

- Designed to help healthcare workers as well as hospital waste handlers from exposure to blood borne pathogens via needlestick injuries.
- Catheter blood observation before blood reaches flash chamber.
- Allows for a variety of user techniques to aid insertion.
- Provides smooth transition from needle to catheter.
- Allows clear visual confirmation through flashback and easy handling.

Specification: TrueSafe™ Safety I.V. Catheter

- Catheter Manufactured With PTFE
- Siliconized Polished Stainless Steel Needle
- RapidFlash™ Notched Needle

- Smooth surface for easy catheter insertion and advancement.
- Sharp needle technology provides both ease of penetration and improved patient comfort during cannulation.
- Available on sizes 20g - 24g

Needle Penetration Comparison

When compared to the industry standard I.V. Catheter, the MedSource Safety I.V. Catheter out performs in comfort and gives a less painful needle insertion.
